Simple Designs

If you are new to weaving, or if you are looking for a simple project to get started with, there are many simple designs that you can weave on your rigid heddle loom. These designs often use a single color of yarn, and they are easy to follow.

- **Plain weave:** This is the most basic weave structure, and it is created by alternating between over and under passes of the weft yarn.

- **Twill weave:** This weave structure creates a diagonal pattern, and it is created by offsetting the over and under passes of the weft yarn by one row.
- **Basket weave:** This weave structure creates a checkerboard pattern, and it is created by alternating between two or more colors of yarn in a plain weave.
- **Lace weave:** This weave structure creates openwork patterns, and it is created by using a variety of shedding techniques to create holes in the fabric.

Intermediate Designs

Once you have mastered the basics of weaving, you can start to explore more intermediate designs. These designs often use multiple colors of yarn, and they may require more complex shedding techniques.

- **Overshot weave:** This weave structure creates a variety of geometric patterns, and it is created by using a second heddle to create a more complex shed.
- **Waffle weave:** This weave structure creates a textured fabric, and it is created by using a combination of plain weave and lace weave techniques.
- **Houndstooth weave:** This weave structure creates a classic houndstooth pattern, and it is created by using a combination of plain weave and twill weave techniques.
- **Log cabin weave:** This weave structure creates a log cabin pattern, and it is created by using a combination of plain weave and overshot weave techniques.

Advanced Designs

If you are an experienced weaver, you can start to explore more advanced designs. These designs often use multiple colors of yarn, and they may require complex shedding techniques and specialized equipment.

- **Damask weave:** This weave structure creates intricate patterns, and it is created by using a variety of shedding techniques and specialized equipment.
- **Brocade weave:** This weave structure creates raised patterns, and it is created by using a combination of plain weave and supplementary weft techniques.
- **Double weave:** This weave structure creates two layers of fabric that are woven together, and it is created by using two sets of heddles.
- **Jacquard weave:** This weave structure creates complex patterns, and it is created by using a specialized loom called a Jacquard loom.

The rigid heddle loom is a versatile and affordable weaving tool that can be used to create a wide variety of beautiful fabrics. In this article, we have explored 26 inspired designs that you can weave on your rigid heddle loom, from simple to complex. Whether you are a beginner or an experienced weaver, there is a design here to challenge and inspire you.
