

Children of Ruin by Adrian Tchaikovsky: A Masterpiece of Science Fiction

Children of Ruin is set in a distant future on a planet called Eden. Eden was once a thriving world, but it was devastated by a war between two alien races, the Engineers and the Architects. The war left Eden in ruins, and the only survivors are a group of children who were created by the Engineers.

The children are all different, and they have different abilities. Some of them are telepathic, while others can control technology. They are all trying to survive in a world that is hostile to them.

One day, the children encounter a group of humans who have come to Eden in search of a new home. The humans are different from the children, but they are also trying to survive. The children and the humans must learn to work together if they want to survive on Eden.
