Forti was born in Florence, Italy, in 1935. She began studying dance at the age of four, and by the time she was a teenager, she was performing professionally. In 1959, she moved to New York City, where she studied with Merce Cunningham and Robert Dunn. Cunningham was a major influence on Forti, and she began to develop her own unique style of movement, which was characterized by its simplicity, spontaneity, and focus on the body's natural impulses.

In the early 1960s, Forti began to create her own dances. Her early works were often improvisational and experimental, and they explored the relationship between movement and space. In 1961, she created her first major work, "See Saw," which was a duet for herself and Yvonne Rainer. The dance was performed on a seesaw, and it explored the dynamics of balance and weight.

Over the years, Forti continued to develop her own unique style of dance. She began to incorporate elements of everyday life into her work, and she also began to explore the use of text and sound. In the 1970s, she began to work with video and film, and she created a number of groundbreaking works that explored the relationship between dance and technology.

Forti's work has been widely influential in the development of contemporary dance. She has been a major force in the development of postmodern dance, and her work has inspired countless other dancers and choreographers. She is a recipient of numerous awards, including the Guggenheim Fellowship and the MacArthur Fellowship. She is also a member of the American Academy of Arts and Sciences.

Forti's Dance Technique

Forti's dance technique is based on the principles of body awareness and improvisation. She believes that dance should be a natural expression of the body, and she encourages her dancers to explore their own unique movement possibilities. Forti's technique is often characterized by its simplicity and spontaneity, and she often uses everyday movements and gestures in her work.

Forti's dance technique is also influenced by her studies of martial arts and yoga. She believes that these practices can help dancers to develop a greater sense of body awareness and control. Forti's technique is also influenced by her interest in improvisation. She believes that improvisation can help dancers to find new and unexpected movement possibilities.

Forti's Work in the 1960s

The 1960s was a time of great change and experimentation in the dance world. Forti was one of the many dancers who were pushing the boundaries of dance and exploring new ways of moving. In the 1960s, Forti created some of her most groundbreaking works, including "See Saw," "Huddle," and "Rollers." These works were characterized by their simplicity, spontaneity, and focus on the body's natural impulses.

Forti's work in the 1960s helped to shape the development of postmodern dance. Postmodern dance is a style of dance that emerged in the 1960s and 1970s. It is characterized by its rejection of traditional forms and its focus on improvisation and experimentation. Forti's work was one of the major influences on the development of postmodern dance, and it continues to be influential today.

Forti's Work in the 1970s and Beyond
